

**POSTDOCTORAL POSITIONS AVAILABLE IN SYNTHETIC ORGANIC / POLYMER CHEMISTRY.** Our research laboratories in the Department of Chemistry at Mississippi State University invites applications and nominations for postdoctoral fellowships beginning immediately. Successful applicants will have experience in synthetic organic chemistry preferably with a background in synthesis & characterization of monomer and polymeric materials design and applications. Experience with aromatic, phenolic, organofluorine, and fluoropolymer chemistry is encouraged but not required. A competitive compensation package is offered along with an exceptional environment for multidisciplinary collaboration and potential downstream technology transfer and entrepreneurship. Interested candidates should email a cover letter, CV, and contacts of 3 references addressed to Prof. Dennis Smith, Department of Chemistry, Mississippi State University via **Ms. Sara Knighten at: [sknighten@chemistry.msstate.edu](mailto:sknighten@chemistry.msstate.edu)**.

MSU is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, ethnicity, sex (including pregnancy and gender identity), national origin, disability status, age, sexual orientation, genetic information, protected veteran status, or any other characteristic protected by law. We always welcome nominations and applications from women, members of any minority group, and others who share our passion for building a diverse community that reflects the diversity in our student population.
